

Aman Anku

Senior Frontend Engineer — React.js • Next.js • TypeScript • SSR/SSG • i18n

amankumaranku@gmail.com | +91-8986369752 | linkedin.com/in/amanAnku26 | github.com/amananku26

SUMMARY

Senior Frontend Engineer with 5+ years architecting scalable frontend systems using **React.js**, **Next.js**, and **TypeScript**. Deep expertise in **SSR/SSG**, **Core Web Vitals** optimization, **i18n**, **Headless CMS** integration, and reusable component architecture. Delivered enterprise platforms serving millions of users; experienced with **microfrontend patterns**, **AI-assisted workflows**, and **CI/CD**-driven deployment.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Material UI

Architecture: SSR, SSG, Microfrontends, Code Splitting, Lazy Loading, Headless CMS (AEM/Stencil), i18n

State & APIs: Redux, Redux-Saga, Context API, RxJS, REST APIs, GraphQL, Real-time APIs, WebRTC

Performance: Core Web Vitals (LCP/CLS/INP), Lighthouse, WCAG Accessibility, Responsive/Mobile-First

Testing: Jest, React Testing Library, Cypress — Unit, Integration & E2E, TDD

Tooling: Webpack, Vite, Rush (monorepo), ESLint, Git, Jenkins, CI/CD, AWS, Docker (basics), Agile

AI Tools: Claude (Opus/Sonnet), GPT-4, GitHub Copilot, Cursor — MCP/AI API integration

EXPERIENCE

Grid Dynamics

Jul 2025 – Present

Senior Frontend Engineer

Bangalore, India

- Architect and deliver scalable React.js + TypeScript UI components for **VISA's global enterprise platform** — serving **millions of users** across 30+ countries with SSR, Headless CMS (AEM), and Stencil.
- Own Core Web Vitals (LCP, CLS, INP) strategy — profiling rendering bottlenecks and optimizing bundle sizes, improving Lighthouse scores platform-wide.
- Integrated AI-driven workflows (Claude, GPT-4, GitHub Copilot, MCP) into the frontend lifecycle — reducing boilerplate generation time and accelerating feature delivery velocity.
- Define and enforce engineering standards, design patterns, and accessibility (WCAG) across cross-functional teams; mentor junior engineers through code reviews and pairing sessions.

Pintar Pvt. Ltd.

Sep 2022 – Jul 2025

Software Development Engineer

Bangalore, India

- Built a **Next.js (SSR/SSG)** job recruitment platform with i18n, real-time RESTful API integration, and multi-step application form — powering **thousands of daily active users**.
- Designed a **reusable component library** and centralised design system (design tokens, Figma-to-code) — reducing content publishing time by **~60%** and eliminating routine engineering dependency.
- Architected **microfrontend modules** within a microservices-oriented backend; managed monorepo with Rush and delivered independent CI/CD deployment per frontend module.
- Championed TDD with Jest and Cypress; established unit/integration/E2E standards — significantly reducing post-release defect rate across the team.

Nextory Pvt. Ltd.

Jan 2021 – Sep 2022

Associate Software Engineer

Bangalore, India

- Led **React.js to Next.js** frontend architecture migration — implementing SSR, SSG, code splitting, and lazy loading; achieved measurable improvements in Core Web Vitals and SEO rankings.
- Contributed i18n implementation and reusable component patterns; finalised technical specs, DFDs, and build scripts across the distributed engineering team.
- Received **2 Spot Awards in a single year** for exceptional technical ownership and on-time delivery.

PROJECTS

Job Recruitment Platform — Pintar

Next.js, React.js, TypeScript, Redux, REST APIs, i18n, Jest, Cypress

- Full-stack SSR/SSG platform with microfrontend architecture, reusable design system, real-time API feeds, and i18n — serving thousands of concurrent users with optimised Core Web Vitals.

Global VISA Website — Grid Dynamics

React.js, TypeScript, Stencil, Headless CMS (AEM), SSR, MCP AI Workflows

- Enterprise-grade SSR platform with Headless CMS integration, centralised design tokens, MCP-integrated AI workflows, and WCAG-accessible UI — serving millions of users globally.

EDUCATION

B.Tech — Computer Science & Engineering

Bengal College of Engineering & Technology

2019
